

Who says railways can't fly?

As a key technology partner to the world's most successful travel businesses, Amadeus has developed the most adaptable and advanced solutions for all areas of the travel industry.

We always kept in mind that there is more to travel than air. With our unique rail expertise and unparalleled industry knowledge, we created Amadeus Rail - your gateway to the vast global net of Amadeus travel agencies who worldwide process more than 80 million rail reservations each year.

Listening to our customers, we learn about each market's idiosyncrasies and find out what is needed in each case for successful and efficient international sales and distribution.

Amadeus Rail offers a comprehensive range of very flexible and proven IT solutions: just imagine, for example, how electronic ticketing can assist railway companies to compete with low-cost carriers!

Don't miss our keynote speech on 8 September from 11:00 am to 11.30 am when Amadeus Director Ground and Maritime Solutions, Mr. Yannick Beunardeau, will explain in detail how you too can optimize your rail business. Mr Yannick Beunardeau will be pleased to answer any questions you may have.

Amadeus creates competitive advantage for its customers – the result of true partnership.
